

# DS Series

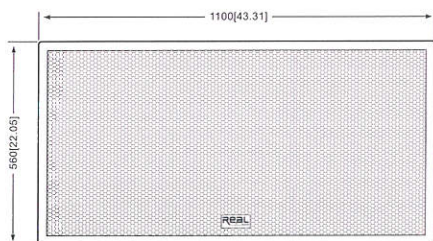

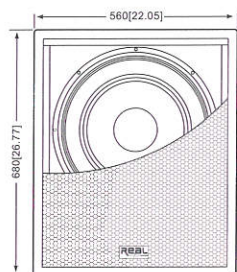

All models out of the DS Series designed for

- Low weight
- versatile
- Versatile setup combination s

## Subwoofer

**DS-118B**  
Bass

### DS-118B

A dedicated subwoofer with 18inch transducers. Loudspeaker complement consists of a 18inch(100mm voice coil) ferrite magnet LF woofer in a vented chamber. The loudspeaker enclosure shall be rectangular in shape. It shall be constructed of 18mm thickness high density plywood and shall employ extensive internal bracing. It shall be finished in wear-resistant textured black paint, adopted for strength and durability. Handles are balance-optimized to facilitate transportation. A standard tripod/polemount adaptor is included. Perforated steel is employed for frontal protection of the loudspeaker complement.

### DS-128B

A dedicated subwoofer with 18inch transducers. Loudspeaker complement consists of dual 18inch(100mm voice coil) ferrite magnet LF woofer in a vented chamber. The loudspeaker enclosure shall be rectangular in shape. It shall be constructed of 18mm thickness high density plywood and shall employ extensive internal bracing. It shall be finished in wear-resistant textured black paint, adopted for strength and durability. Handles are balance-optimized to facilitate transportation. A standard tripod/polemount adaptor is included. Perforated steel is employed for frontal protection of the loudspeaker complement.
