# Virtual Controller III...
## so what?

Take advantage of advanced features such as:

### Easy Remote
Control your lighting software
from a smartphone or tablet.

**NEW!**

### Scene Generator
Take it easy !

Create the lighting effects you've always dreamed of with this tool. LED matrices, color mixing and Pan/Tilt movements are easy to make with the generator.

### MIDI and DMX IN
Triggering & Control

Control Daslight's channels and features with a Midi board plugged into your computer.  Record DMX and trigger scenes and effects with the DMX input signal.

DMX 512 LIGHTING DESK
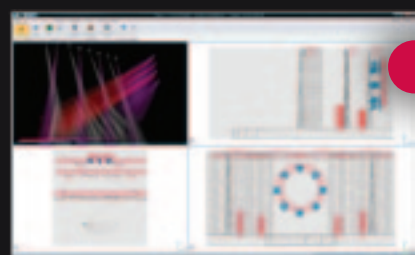

### Virtual 3D Simulator
Visualize your whole show

The included 3D visualization software comes with many effects and a realistic rendering of textures, gobos, prisms, shadows and object shading.  Whether you are at home, in the office, or presenting to a client you can always feel you are on the stage.

### Virtual Screen
Create your own lighting desktop

Create your own lighting control user interface.  You can use a simple touch screen to trigger your Virtual Controller 2 scenes.

# Virtual Controller III

## What did you do before Daslight?

Daslight is famous for its ease of use.

Virtual Controller 2 is going to be your best

friend for all your lighting projects. No

lighting console needed! With the features

of a more expensive controller, Daslight gives

you a lot of power at a great price.

### Do you want to try?

# 3 steps to live it up!

## 1. Setup

### Setup Screen

Patch & Set your fixtures.
Browse the library for your fixture, or
you can ask for us to create one for you.

## 2. Design

### Editor Screen

Create your own shows.
Use the effect generators.

## 3. Play

### Live Screen

Run your show.
Keep manual control.
